

ISF WOMEN'S MENTORSHIP PROGRAM

Following the successful Women's Luncheon held during the ISF World Seed Congress 2023 in Cape Town, ISF is pleased to announce the launch of the ISF Women's Mentorship Program.

The positive energy and enthusiasm generated from our initial event were truly inspiring, and it is evident that our community of women in the seed industry is filled with talented individuals. As we seek to further enhance the support and growth opportunities for women in our field, we are extending our call for mentees to join this program.

- **OBJECTIVE**

The ISF Women's Mentorship Program aims to create a platform for experienced professionals to share knowledge, provide guidance, and contribute to the development of women in the seed industry. Their expertise and accomplishments – and their willingness and availability – make them an ideal candidate to inspire and empower others on their professional journey.

- **CALL FOR MENTEES**

We are looking for female professionals from within the seed industry or who are seeking to join the seed industry from academe or from other food and agribusiness industries, who are interested in taking part in the program as mentees.

- **KEY DETAILS**

Time Commitment: We kindly request a commitment of at least one hour per month for mentorship activities, which can include virtual meetings, email exchanges, or other forms of communication that suit both you and your mentor.

Join the first call/event on 8 March 2024: To kick off the program, we are organizing a virtual event on **March 8, 2024, (Women's Day) at 13:00 CET**. This will provide an opportunity for mentors to briefly introduce themselves. For more information, please send an e-mail to Marie Tahmazian, ISF Membership Engagement Manager, at m.tahmazian@worldseed.org.
